

Shiver Me Timbers! LTC/HH/H Earthquake Exercise

Segment 3: Facility Leadership Response to Earthquake Shaking

In this segment staff will verbalize or demonstrate through a *mock disaster drill their response to earthquake shaking and perform a self-assessment and assessment of surrounding area to report to leadership. This segment may be run by itself or may be run in conjunction with Segment 3.

Core Capabilities Being Tested

***CMS Emergency Preparedness: Community Participation and Partners**

Community partners are considered any emergency management officials (fire, police, emergency medical services, etc.) for full-scale and community-based exercises, however, can also mean community partners that assist in an emergency, such as surrounding providers and suppliers. The intent behind full-scale and community based exercises is to ensure the facility's emergency program and response capabilities complement the local and state emergency plans and support an integrated response while protecting the health and safety of patients.

* CMS Updated Guidance in Emergency Preparedness – Appendix Z of the State Operations Manual <https://www.cms.gov/files/document/qso-21-15-all.pdf>

****Capability 2: Health Care and Medical Response Coordination**

Health care and medical response coordination enables the health care delivery system and other organizations to share information, manage and share resources, and integrate their activities with other jurisdiction partners.

****Capability 3: Continuity of Health Care Service Delivery**

Optimal emergency medical care relies on intact infrastructure, functioning communications and information systems, and support services. The ability to deliver health care services is likely to be interrupted when internal or external systems such as utilities, electronic health records (EHRs), and supply chains are compromised. However, health care organizations should take a broader view and address all risks that could compromise continuity of health care service delivery.

Associated Exercise Objectives

Exercise Objective	Expected Actions	Satisfactory/ Not Satisfactory	
<p>3. Facility interacts with community support partners regarding facility status and resource or support needs as a part of validating preparedness procedures.</p>	<p>Staff demonstrate ability to:</p> <ul style="list-style-type: none"> • Gather current status of the facility and resource or support needs • Use a variety of communication means to Communicate with NWHRN • Follow established status and needs categories for reporting 	<p>(Circle)</p> <p>S NS</p> <p>S NS</p> <p>S NS</p>	
<p>6. Leadership accounts for all staff, residents, others under their care, visitors, and/or vendors who may be onsite or on duty and assesses impact to the facility immediately following an earthquake.</p>	<p>Staff demonstrate ability to:</p> <ul style="list-style-type: none"> • Understand & account for all locations and people within the facility including overall facility capabilities, units, departments, patient census and staffing numbers • Request and gather status reports from all impacted locations including follow up with non-reporting locations • Gather separate department or unit status into one cohesive status report for facility 	<p>(Circle)</p> <p>S NS</p> <p>S NS</p> <p>S NS</p>	
<p>7. Leadership shares facility, staffing and resident status and immediate resource needs with NWHRN and/or local emergency response partners within one hour following an earthquake.</p>	<p>Staff demonstrate ability to:</p> <ul style="list-style-type: none"> • Contact community emergency response partners quickly by having names and phone numbers immediately available • Share facility status report with community partners through a variety of communication tools • Receive confirmation of receipt with community partners 	<p>(Circle)</p> <p>S NS</p> <p>S NS</p> <p>S NS</p>	

Exercise Objective	Expected Actions	Satisfactory/ Not Satisfactory	
<p>9. The facility has an up to date emergency operations plan as per their regulatory requirements and Leaders demonstrate use of the plan immediately following an earthquake.</p>	<p>Staff demonstrate ability to:</p> <ul style="list-style-type: none"> • Quickly locate facility emergency preparedness policies, procedures • Verify the date the emergency preparedness policies and procedures were last updated • Identify whether the current emergency preparedness policies and procedures are inclusive of the current disaster that is happening • Stand up Incident Command and establish Incident Coordination Team 	<p>(Circle)</p> <p>S NS</p> <p>S NS</p> <p>S NS</p> <p>S NS</p>	

Notes on Strengths (things to keep doing)

Notes on Areas for Improvement (What could be done better)
